Individual Log
Darcy McCoy 40234556

Date	Time (minutes)	Task
Jan 30- 31	15	Update the readme project description and member names and student ids.
Jan 31- Feb 5	120	Implement login session management (users stay logged in for 7 days). If users are not logged in, then they will be redirected to the login page.
Feb 5- 6	45	Create links to switch between the login and register pages. Update the corresponding css.
Feb 5- 7	45	Add global admin status to the User object and the register page (this allows users to make themselves global admins).
